2014 Edition Marketing Materials Requirement

II.   Certified EHR Vendor and Product Information

Additional Software Required:

1. Windows 7 or higher with:
     o 1 gigahertz (GHz) or faster 32-bit (x86) or 64-bit (x64) processor
     o 1 gigabyte (GB) of RAM (32-bit) or 2GB RAM (64-bit)
     o 16GB available hard disk space (32-bit) or 20GB (64-bit)
     o DirectX 9 graphics device with WDDM 1.0 or higher device
 2. Adobe Reader (freeware)
 3. CutePDF (freeware)
 4. Microsoft Office Word 2003 or Higher **
 5. Java (freeware)
 6. Philips Dicom Viewer R3.0 SP3
 7. Photocapture software (usually comes installed with webcam)
 8. Scanner Interface software
 9. Insurance card scanner software
 10. EKG interpretation software (optional)

** Purchasing Microsoft Office may not be necessary if your PC is pre-installed with the Microsoft Office Tools suite. This suite comes with several different utilities, one of which allows you to open and view MSO Word documents, but omits the ability to edit them. Fortunately, it is not necessary to edit .doc/.docx documents in order to be able to use MyChartWriter, so any potential investors should check to see if they already have these utilities prior to purchasing MS Office.

Please contact us if you have any questions about the software listed above. There may be circumstances where certain programs are not necessary for use with the EMR. It is also foreseeable that new software will be developed that either replaces or improves the software listed above. For this reason, we have created a website that is dedicated to ensuring our users always have an incredibly pleasurable experience with our software and that they remain in constant communication with the latest developments in the EHR software industry. Please visit www.panaceamedicalmba.com for more details.

III. Transparency and Disclosures

A) Additional costs that a user may be required to pay include, but are not limited to the following:

1. **Rcopia**: This is a product of Dr. First party to write e-prescriptions and managing patient's Medication, Allergy and Pharmacy information.

Rcopia fulfills following certification criteria:

A. 170.314(a) (1) Computerized provider order entry (Medications)
B. 170.314(a) (2) Drug-drug, drug-allergy interaction checks
C. 170.314(a) (6) Medication list
D. 170.314(a) (7) Medication allergy list
E. 170.314(a) (10) Drug formulary checks
F. 170.314(b) (3) Electronic prescribing

Cost for Rcopia: 450.00 Per provider Annually

2. **PACS System**: MyChartWriter is using PACS system for storing and retrieving images.
PACS system fulfills following certification criteria:
170.314(a) (12) Image Results
Cost for PACS System: $2.00 Per Image

3. **Direct Mail Tool**: "EMR Direct", a direct mail tool, is being used to send and receive clinical summaries to patients and provider securely.
This fulfills following certification criteria:

A. 170.314(b) (1) Transitions of care – receive, display, and incorporate summary care records

B. 170.314(b) (2) Transitions of care - create and transmit transition of care/ referral summaries

C. 170.314(e) (1) View, download, and transmit to 3rd party

Cost for Direct Messaging Tool: 25.00 Per Provider Per Month

4. **Mirth**: Mirth is a third party tool to generate health care information in HL7. Mirth fulfills following certification criteria:

A. 170.314(b) (5) (A) Ambulatory Setting Only - Incorporate laboratory tests and values/results

B. 170.314(f) (2) Transmission to immunization registries

C. 170.314(f) (3) Transmission to public health agencies –syndromic surveillance

Cost for Mirth Tool: No cost to the user as of now.

B) Limitations that a user may encounter in the course of implementing and using this software include, but are not limited to the following:

a. Employee time spent training on the EMR and entering data.
b. Interruption in internet service due to unforeseen circumstances.
c. Occasional periods when My Chart Writer may be down or running slowly due to unforeseen technological malfunctions as a result of power outages
